## How Knot to Get Lost During Your Team Building Activities

The first few days at Leadership Training Conference is all about building your chapter. You pick a name, design a banner, and begin to know the guys in your

The Shielded Brotherhood Guys maneuver the Spider-Web...kind of.

chapter. In order to be effective, your chapter needs to trust each other and the fastest way to build trust is to practice. This year, DeMolays at LTC are participating in a plethora of team building activities. One of the longest running activities of LTC is the ropes course.

In this activity, the chapter

must communicate and work collaboratively to successfully complete the challenge.

The other activity, held late last night, also stressed communication. A blindfolded member of the chapter had to navigate a maze following only the commands of their brethren. Patience, thoughtfulness, and clarity all allowed for success in this task. Taken together, these activities show effective team building is happening at LTC.

## Bloom's Taxonomy and You

Dad John Haney led an interesting class last night on leadership. He reminded us that effective leadership is not an easy task and that we must utilize different skills to succeed. His use of Bloom's Taxonomy stressed that creativity is one of the most challenging components of leadership. The skills you learn at LTC will hopefully allow you to be more creative and become a stronger leader in your home chapter.

## The Mysterious Frogman of Lake Merrymeeting Spotted At LTC.

Normally, at LTC, the topic of cryptozoology centers along the plethora of big-foot sightings in Central New Hampshire, but a growing number of witnesses are claiming to have seen a startling new creature along the banks of Merrymeeting Lake. The appearance of this frogman has left the LTC Staff baffled. Slowly emerging from the depths along the shallow shores, this amphibious croaker was seen attempting to steal the Ultimate Water Polo ball today. The assembled teams were successful in preventing this mythological beast from disrupting their fun. A cousin to Chupacabra, a descendent of Nessie or Champ, or something new...no one knows for sure, but be on the lookout for other creatures of lore while walking between classes and events. Where there is one fantastic beast there are bound to be others. The Fi-Daily-Tas Staff will be on the lookout for more of these elusive critters and hope to avail you of their exploits soon.

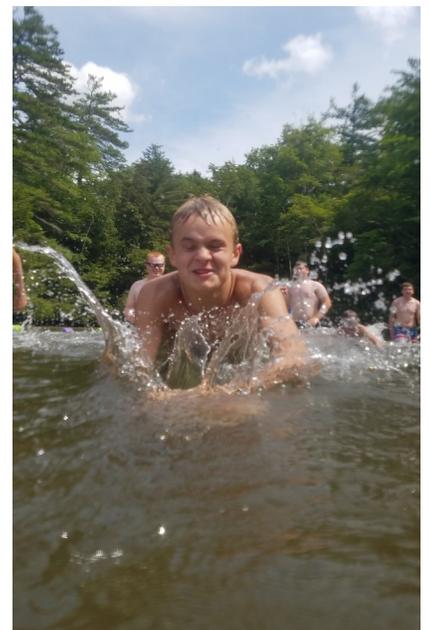

A Polaroid of the pond's Polliwog proves its existence.

## DeMolay Sports: A Cautionary Tale

Danger abounds...Region 1 LTC is about fun, leadership, and making new friends, but it can also be about sports. Here at Lions Camp Pride, we engage in a plethora of sporting activities, but these are not your average games. We've ramped up the fun for our activities under the sun. The three main sports played at LTC are Kickball, Ultimate Water Polo, and Dodgeball. Each sport is simple to play, but they do not come without dangers. To avoid a visit from Dad O'Toole, please adhere to the following rules:

1. Hydrate yourself (But at Water Polo don't drink the lake water...there is a limited supply).
2. Apply Sunscreen. Even if it is cloudy, you should wear SPF because UV rays can go through clouds. (Applying sunscreen at night, however, is weird)
3. Follow the rules. If you are not sure of the rules, copies should be available in your cabins. If you can not read, then stop pretending.
